

## ChemDraw Pro 13.0 Suite

**ChemDraw Pro 13.0 Download Individual Perpetual English**  
by Perkin Elmer (formerly by CambridgeSoft )

**System Requirements:** XP Pro SP3 (32 bit only), Vista Business and Ultimate (32 bit only), **Windows 7 (Pro and Ultimate (32 /64bit))**; MS Office 2010 (32bit), MS Office 2003, MS Office 2007;  
**Mac OS 10.6 to 10.8 & word 2011 (mac)**

### **An Industry Leader in Chemically Intelligent Drawing Programs**

The ChemDraw® Pro 13.0 application is an industry leader in chemical drawing programs. In addition to creating publication ready drawings, chemists can save time and increase data accuracy by using ChemDraw Pro software to predict properties, generate spectra, construct correct IUPAC names, calculate reaction stoichiometry, search databases and more.

ChemDraw® Pro 13.0 premier application includes ChemDraw Pro 13.0, ChemProp, ChemDraw ActiveX Control Pro, ChemDraw Plugin Pro, 3D ActiveX Control Pro, 3D Plugin Pro

### **ChemDraw® Pro Highlights in Version 13.0**

- New Gel Electrophoresis Plate Tool provides arbitrary rotation for lane labels, drag and position band labels, paste data from Excel or other sources, and copy and paste between lanes.
- ActiveX Control/Plugin allows querying online chemical databases and viewing and publishing online structures.

For more information on all of the applications that are include in ChemDraw Pro 13.0, please see the Applications tab below:
